## DETAILED ACTION

### *Drawings*

1. The drawings were received on 4-13-2006. These drawings are accepted by the examiner.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. **Claims 1, 12, 24 and 34** are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1,13 and 25 of copending Application No. 09/733,193 (Babu'193) in view of Shah (US 5,758,313).

Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1,12,24 and 34 of the instant application merely broadens the scope of the claims 1,13, and 25 of the application by eliminating the elements and their functions of the claims (i.e. updating said location data continuously), and rewording the same limitation from

Art Unit: 2616

“raking items in said collection according to expected utility” to “calculating a location of said user from the collection of said location data”. It has been held that the omission an element and its function is an obvious expedient if the remaining elements perform the same function as before. *In re Karlson*, 136 USPQ 184 (CCPA). Also note *Ex parte Rainu*, 168 USPQ 375 (Bd.App.1969); omission of a reference element whose function is not needed would be obvious to one skilled in the art. Moreover, claim 1,12,24 and 34 of the instant application is the same scope of the claims 1,13,25 of the co-pending application by adding well known elements and functions. In particular, Shah discloses each location sources of the plurality of location sources corresponds to a different mobile device of a plurality of mobile device and each mobile device corresponds to a user (see FIG. 8, Mobile Data Suites (MDS) 610a-610n; see col. 9, line 35-65). Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide, as taught by Shah in the system of Babu’193, so that it would provide an integrated system which display the location/position of user; see col. 3, line 5-46.

The doctrine of double patenting seeks to prevent the unjustified extension of patent exclusivity beyond the term of a patent. This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

### ***Response to Arguments***

4. Applicant’s arguments, see pages 4-6, filed 4-13-2006, with respect to claims 1-10 and 12-34 have been fully considered and are persuasive. The rejections of claims 1-10 and 12-34 have been withdrawn.

*Allowable Subject Matter*

5. **Claims 22 and 23** are allowed.
6. **Claims 2-10, 13-21, 25-33** are objected to as being dependent upon a rejected base claims, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

*Conclusion*

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
